

MAKING AWESOME MEMORIES FOR OUR CHILDREN

OUR
COMPANY

E&G (ZALAKAS) IMPORTS – EXPORTS LTD

INTRODUCTION

E&G (ZALAKAS) IMPORTS
EXPORTS LTD

Our company counts more than 14 years of professional experience in the supply and installation of commercial playgrounds, urban and sports equipment as well as safety surfacing.

We offer comprehensive services from design through selection, installation, and after-sales support while we have a great range of products to choose from based on your budget and needs. Our experience, the knowledge of what is available in today's market, the long-term collaborations, and the principles that have guided us from our first day of operation to today, guarantee the outcome of our work.

Besides, what has always driven us and gave us the passion to move on, was the ability to create playgrounds and urban areas that we trust our children to play in safely and securely!

A B O U T U S

E&G(Zalakas) Imports-Exports Ltd was created in 2006 to offer complete business solutions in the area of commercial playgrounds, urban and sports equipment supply.

All the products we offer are designed and produced under modern technological methods in order to ensure optimum quality. We collaborate with European manufacturers who are certified with the European Playground Safety Standard EN1176, EN1177 and EN71-3 while their whole production system and after-sales service are ISO9001 certified.

In addition, we collaborate with local certification authorities who can inspect and certify whether a playground unit or park area has been installed according to standards and therefore ensure that children can play safely in it.
